SUPPORT FOR EUROPEAN NATIONALS

EMPLOYMENT SUPPORT

We support European Nationals with the right to work to gain sustainable employment through our Job Club, Skills Sessions, access to specialist support agencies and Inclusive Volunteering. This includes 1-1 support with CV writing, job applications and interview prep. We have a package of support available to people when they have gained employment to help them stay in work.

SKILLS & EXPERIENCE

Our Skills sessions are available to people who are aiming to gain qualifications and certificates to help them get into work. We have a range of qualifications that people can access for free. Our Inclusive Volunteering programme offers the opportunity for people to improve their English, learn customer service skills, gain catering experience and learn the benefits of working in a team.

HEALTH & WELLBEING

We have a range of specialist Visiting Agencies that people can access to help them with their physical and mental health without the need for a complicated referral process, including access to a nurse clinic, drugs and alcohol support, chiropody and counselling. Our Activities Programme helps people to gain new skills, confidence and build positive relationships.

SPECIALIST ADVICE & SUPPORT

Our service has specialised in offering support to European Nationals for over 15 years. We offer specialist advice and support for people to access welfare benefits and housing wherever possible and will advocate for people to access the support they have the right to receive.
